

DNU facts

The project in numbers

- About the building of the New University Hospital in Aarhus:

- Four hospitals in Aarhus are gathered under one roof
- 250,000 m² of new build
- 160,000 m² of existing hospital buildings are integrated
- Approx. 30,000 m² are converted to another function
- Area of lot in total approx. 1,250,000 m²
- Overall budgetary framework of 6.4 billion DKK for new buildings and 430 million DKK for reconstruction
- In addition:
 - The New Psychiatric Centre of 50,000 m² with a construction cost of 1.25 billion DKK
 - Danish Centre for Particle Radiotherapy of 9,500 m² with a construction cost of 800 million DKK
 - Car park with 700 parking spaces and a helipad on top with a construction cost of 160 million DKK

Future activities...

- 100,000 hospitalized patients annually
- 800,000 patients for ambulant treatments
- Capacity of 1080 beds in total (822 somatic + 258 psychiatric)
- Primary hospital for 320,000 citizens in and around Aarhus
- National and regional hospital for 1.2 million citizens in Central Denmark Region
- 40-50% of all hospital activity in Central Denmark Region
- Largest employer in Aarhus municipality with approx. 10,000 employees

Hospital city with the size of a Danish provincial town...

- 2.8 km of new ring road
- Three new main access roads
- Almost 5,700 parking spaces

The construction in numbers...

- A construction site area of 0.3 square kilometers
- Two construction sites simultaneously (north and south)
- A construction speed of 1000-1500 m² per month of each construction site
- Construction site common facilities of 4,500 m²
- Approx. 6 kilometers of fencing for construction sites
- Approx. 1,200 construction workers working at the same time, when activity peaks
- Contracts signed by approx. 70 contractors - and an even greater number of subcontractors
- Approx. 200 daily shipments for the construction site

Timeline...

- The construction of DNU started in 2009
- The first buildings were put into operation in 2015
- The complete project will be finished in 2019
